

JOB OPPORTUNITY: ASSOCIATE-LEVEL PROFESSIONAL

About Invivo:

We are Invivo Partners, a venture capital firm specializing in early-stage investments in healthcare and deep tech companies.

Managed by Luis Pareras, Albert Ferrer, and Laura Rodríguez, with investments in 17 portfolio companies and 4 successful exits.

Our portfolio companies have raised over 350M€ from global VCs.

Our team combines scientific, technical, and financial expertise to make impactful investments and foster growth in the health sector. With our deep understanding of Technology Transfer and market trends, we aim to become a leading player in Europe's biotech and deep tech industries.

Our investors base includes major institutional investors like the European Investment Fund, Instituto de Crédito Oficial (ICO), Institut Català de Finances (ICF - Catalan Finance Institute), Institut Valencià de Finances (IVF), Barcelona City Council, and a majority of private investors. Invivo is a venture capital firm specializing in the biotechnology sector, managing over €150 million across three funds: Healthequity, Invivo Ventures, and Invivo Ventures III.

The Role:

We are looking for an investment professional at Associate level or above to join our team in Barcelona. The successful candidate will contribute throughout the investment process, from identifying and assessing new opportunities to supporting our portfolio companies.

Tasks:

- Scouting and management of deal flow opportunities.
- Analysis of investment opportunities both at the scientific and commercial level.
- Conducting meetings with companies to evaluate potential investments.
- Preparation of reviews and market studies in specific areas of interest.
- Preparation of Investment Committees.
- Support due diligence processes.
- Participate in the follow-up and management of portfolio companies.

Qualifications:

- Degree in Biotechnology; Medicine; Biomedicine; Pharmacy or similar.
- Masters degree preferably focused on business, innovation or entrepreneurship.
- PhD in life sciences or a related field, such as biotechnology, biomedicine, medicine, or pharmacy.

Experience:

- More than two years of relevant experience in life sciences venture capital or in a technology transfer office, with exposure to company creation.

Skills:

- Practical knowledge about IP and technology transfer.
- Practical experience using scientific and market-intelligence databases such as Pubmed and Globaldata.
- Strong interest in scientific developments and confidence reviewing scientific literature.
- Analytic and synthetic mindset.
- Excellent communication skills.
- Fluent in Spanish and English (C1 level).
- A proactive, collaborative, and intellectually curious approach.

Conditions:

- Full-time position based at our office at [Passeig de Gràcia, 54, 2D](#), Barcelona.
- 6-month trial period.
- To apply please send your CV and motivation letter to: info@invivo.partners
- Deadline for applications: **15th October 2026**.
- Starting date: **Q4 2026**.
